## LPG Compatible Kit

### Classic kit-B/H/C

The Regulators are ideally suited for the mobile light trade. The HARRIS mixing system uses gas at a lower pressure i.e. 40Kpa on Acet which provides gas savings and increased safety. Operator's will enjoy that the handle, suits right or left hand. Cutting attachment has a built in "ease-on" valve, for less sparks when starting and hot tips ensure quick starting. Kit includes Reg-End Flashback Arrestors and Flashguards on Handle.

Includes 10 metres of 6mm Harris Oxy/LPG Hose.

**Complies to  
AS 4267  
AS 4839  
Standards**

**Part No 637380117HC**

**Part No 637380127HC**

(Side entry Oxy)
